Devar Access Flooring Environmental Policy

Commitment to Environmental Performance

Our company recognise the importance of environmental issues to our clients and the world in general and for this reason it has developed this mission statement which will demonstrate our company's dedication to contributing in any way it can to these global issues.

For this reason the Company is committed to:

- Compliance with all relevant current legislation and an awareness of future legislation for all Environmental elements.
- Continuous review of our business activities to minimise the Environmental impact of our operations through;
 - Improvements in pollution prevention through elimination, reduction and control of emissions and waste resulting from our operations.
 - Continuous training of employees and subcontractors to create Environment awareness and responsibility throughout the Company.
 - Working closely with customers, suppliers and other relevant parties to encourage the ongoing reduction in the Environmental impact of our business activities.

Stephan Leonard
Director
